## **DETAILED ACTION**

### ***Reasons For Allowance***

The following is an examiner's statement of reasons for allowance: Prior art could not be located that taught a stacking structure comprising a flexible tape substrate or means for interconnection, wirebonds connecting the die to the substrate, encapsulant covering the die and wirebonds, and flap portions of the substrate folded around the encapsulant that don't overlap and that have an exposed metal layer. Particularly the use of wirebonds to connect the die to the substrate, as opposed to the solder balls of the prior art. These limitations, in conjunction with the other claim limitations, was neither disclosed in, nor suggested by, the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
